

Installation Instructions YAMAHA NERF BARS G14 – G22

- Place nerf bar up to rocker panel at desired location.
- Mark holes to be drilled.
NOTE: *Make sure hole locations do not interfere with any OE gussets or brackets on backside of rocker panels.*
- Drill two 5/16" holes through rocker panel.
- Install nerf bar brackets behind rocker panel with 1 1/4" x 1 1/4" spacer blocks and hardware provided.
- Repeat for other side of cart.
